What's New In DTgrafic Bus Stop 3?

DTgrafic Bus Stop 3 is a screensaver that you can personalize in many aspects, from visual to graphic. Highly customizable ambient The options can be found in Control Panel, in the Screen Saver Settings window. Once this is open, you can set the resolution you want the screensaver to be displayed at. Being that DTgrafic Bus Stop 3 is an interactive screensaver, you can click on the moving elements and interfere in various creative ways. When clicked, dogs will bark, vehicles will honk, ambulances will start their sirens, people will talk and you can also switch lights, ring bells and knock on doors. You can increase the speed people and vehicle move, and also, you can schedule the frequency of buses and suburban railways. Photos from your drive can be loaded in order to be displayed on lorries, buses and railways. You can even customize the building lettering or the pavement, choosing from the few available samples. Weather, alarm clock and notifier You can be notified of new e-mails on the banner dragged by the plane. You can set other notifications as well, so you can remember important events. The same character holding a large bouquet of flowers will make an appearance on your Birthday. If you have an Internet connection, the application can also display the weather in specific locations in the world. You can choose if you prefer the clock displayed on the building to be digital or analog. DTgrafic Bus Stop 3 allows you to set alarms with custom text messages at the specified hours. Other reminders can be set to appear over the heads of different pedestrians. If that does not seem efficient, you can set a customized text to be displayed on the message ticker. Various sound effects and music player Every standard sound made by engines, birds, people, dogs or airplanes can be replaced with your own. Also, when the street performers come by, they will start playing MP3, WAV or OGG files chosen by yourself from the local drives. Conclusion DTgrafic Bus Stop 3 is a screensaver that bundles a multitude of features, and even though it was created to be entertaining, it also incorporates useful functions, like alarm clock, weather monitor, event reminder, e-mail notifier or music player.
