Wine Collection Database Crack Product Key Free [Latest]

Download

Wine Collection Database Crack + Free

User-friendly and accessible layout However, if you are a professional wine taster or producer you need a specialized utility to help store your products or wines you tasted. A simple and efficient solution might be Wine Collection Database Crack Keygen, which comes lightweight in means of functions for a swift insertion process. It's wrapped in predominant green skin and self-explanatory interface, displaying the necessary fields in plain sight, and several navigational controls. As it's portable, it can be directly started from an external pen on any computers, to have easy access to your database anywhere. Fill in the required info about the product The operation is not complicated, as all you need to do is input the wine name, winery, variety, vintage, color, sweet/dry, along with country, region, serving instructions, alcohol percentage, quantity, and market value. For those details to be registered into the list, you have to press the Add button. The number of records is shown in the upper part of the window, while at the bottom, you can jump to the first and last item, and browse through them with the next/previous commands. Sadly, the app doesn't provide an option to transform the database into a private one, and protect it with a password from prying eyes. Useful functions that could've been implemented Plus, the export feature is non-functional, eliminating the only way you could save your data, and further alter it with other tools. In addition, compared with other similar apps it doesn't come with any settings, like interface look, text visuals, or the ability to add new categories, besides the predefined ones. On an ending note The bottom line is that Wine Collection Database Free Download is an average yet useful program designed to provide an uncomplicated method to enter and store information about wines and other relevant details. Wine Collection Database - Wine Cellar [PRO] v1.0.0.0 Wine Collection Database Review User reviews #1 by Jonathan Fitzgerald 3.5 I prefer the anApp Wine app's Wine Cellar so far and I have no problems with it at all. This is my favorite app on my android phone right now. I like the fact that it's designed so that I can store ALL of the wines I have access to, and that I can easily access the information I need to remember in the wine I want to

Wine Collection Database License Code & Keygen

Wine Collection Database

Wine Collection Database is a windows app designed to help in the management and storage of wines and other related information. The application can easily be used in personal and commercial contexts and allows you to list all the information about a wine or wine collection. Wine Collection Database supports multiple databases and imports/exports in a variety of formats. As a side note, this app requires Silverlight version 4.0 or later and is a 32-bit binary. It can be downloaded from the official site. File size: 2.9 MB License: Freeware 1.2 MB Open Source Show CRM for Wine Software 2016-11-19 4.0 Wine CRM for Wine is a handy CRM and inventory control software package that helps you keep track of your wine inventory and manage your business. It integrates with your e-commerce or other website, so you can simply log into your site to add new listings, search and compare your wine inventory, follow pricing changes, create reports and so on. CRM for Wine is a perfect solution for wineries, distributors, merchants, distributors, and anyone else who sells, resells, or otherwise trades in wine. This is not a database; it is a shopping cart! You can add items, change the price, add notes and descriptions, and then remove them from the cart. Wine Merchant is a simple but powerful Wine wine inventory database and CRM app. Track pricing, compare inventory, keep records of your shipments, and more! All prices are accurate and at the time of the posting they were active. We are not responsible for errors, omissions or changes to these listings. 63.68 MB Warehouse Management & Inventory Business 2015-09-12 4.5 Wine Wine Warehouse is a nifty and user-friendly application for storing and organizing wine inventory. It has the ability to sort the products and create a visual overview of your inventory. The software also allows you to create separate inventory locations and to perform standard reports on stock information. You can easily filter out the inventory by the country, region or variety. It also comes with the wine varieties library. The interface is quite easy to use, and it can be a perfect choice for both wine lovers and professional winemakers. Description: Wine Locker is a simple but powerful Wine
